

CNC Machining Centre Engineer Required

Due to on-going investment and continuous business development, we currently have a vacancy for a skilled CNC Machining Centre Engineer. Please contact us if you would like to be part of our growing team and help continuously improve our Sub-Contract Machining Company.

The Role:

- Setting/programming Vertical or Horizontal Machining Centres.
- Support on essential daily organisational tasks within our company.
- Developing new and improving existing manufacturing processes.
- Competitive salary, working within an excellent team driven environment.

The Person:

- Have experience of working within the Sub-Contract industry manufacturing components for various industries.
- Excellent communication/organisational skills, problem solving, flexible & ability to work well within a team.
- Knowledge of Mazatrol/Fanuc/Siemens control would be beneficial but not essential.
- Possessing a full UK driving licence would be beneficial, but not essential.

If you have the necessary skills and desire to become part of our team, we would like to hear from you. Please do not hesitate to contact us, should you require any further information regarding this position.

No Agencies Please
