

Due to continuous growth Gillrick Metalwork are currently looking to recruit for the following positions to work within our subcontract engineering organisation. This is an exciting opportunity for the successful applicants to join our well-established engineering company.

Light To Medium Fabricator

The successful candidates should: -

- Have a broad knowledge within a subcontract sheet metal fabrication environment working to high standard.
- Have experience in Fabrication and Welding.(MIG & TIG)
- CNC Pressbrake experience would be an advantage.
- Use of Fabrication machinery i.e. drills/rolls/saws is essential.
- Be able to work well in a team environment with excellent communication skills.
- Have good problem-solving skills.
- Operate at all times within current Quality, Environmental and Health & Safety Standards. (ISO 9001/14001/45001).

Candidates will have a proven track record within a similar engineering environment.

Excellent rates of pay negotiable based on skill and experience. There is also opportunity to benefit from regular paid overtime in addition to a **4 day, 39-hour week, Monday – Thursday, permanent dayshift.**

Please send CV with a covering letter to: -
